

ENVIRONMENTAL AWARENESS-RAISING FOR OUR SUPPLIERS

At ANOVO Ibérica Madrid S.L., conscious that the activities we carry out are related to the environment, we have implemented an Integrated Management System that optimises adequate control over the environmental aspects and impacts inherent to our business activities, in addition to the quality of our services.

As an active part of our processes, and considering your status as one of our company's service suppliers, we would like to convey to you through this document our desire to pass on to your company the pillars of environmental awareness-raising that we bear in mind when carrying out our business activities at our own centres.

ANOVO Ibérica Madrid S.L. has a Global Environmental Management System in place, in accordance with the UNE-EN ISO 14001:2015 Standard, which was certified in 2018 by the certifying company ADOK and which allows us to reduce environmental risks, improving the management of resources and optimising investment and costs.

We would like to share with you the importance and our internal achievements as a result of the introduction of this certification and to be at your disposal if in the future you need practical advice or consultation when introducing an environmental management system such as the one our company uses.

José García Martínez

Chief Executive Officer

A handwritten signature in black ink, appearing to be the name José García Martínez, written in a cursive style.
